

# What Is A “Service Special”?

A “Service Special” is a combination of season specific services performed to maintain your machine and keep it running in good condition year round. The reason it is referred to as a “Service Special” not only pertains to the combination of services provided at one time, but also each “Special” is package priced to fit any one’s budget! Whether your machine is in need of just a tune-up or a complete overhaul, we have a “Service Special” to accommodate your needs!

We do understand that every piece of equipment’s needs are unique and are always willing to make adjustments, substitutions, and modifications in order to ensure you get the right service, that is right for you!

During the colder months we offer our Fall & Winter Service Specials and for a nominal fee...

## *We’ll Store Your Equipment!*

Putting your lawn mower to bed and waking up the snow blower for the season could mean a lot less room in your garage or shed. After we perform the service special you’ve purchased, we’ll take your lawn tractor to our warehouse for the winter and return it to you in the spring! Use our space... not yours!
